

Scott, Murphy and Daniel Earns National Safety Award from Associated Builders and Contractors

Bowling Green, Kentucky, April 10— Associated Builders and Contractors announced that Scott, Murphy and Daniel received a National Safety Excellence Award, which will be presented at the 30th annual Excellence in Construction Awards Ceremony during ABC Convention 2020 in Nashville, Tennessee, on Aug. 18.

The 2019 National Safety Excellence Award winners were selected from ABC member firms that achieved Diamond, Platinum and Gold status in ABC's STEP Safety Management System in 2019. During the selection process, contractors were judged on self-evaluation scores, lost workday case rates, total recordable incident rates, leading indicator use, process and program innovations, and video interviews conducted by members of ABC's National Safety and Health Committee.

“Associated Builders and Contractors is proud to recognize Scott, Murphy and Daniel for consistently raising the standards of safety in the construction industry,” said 2020 ABC National Chair Tim Keating, owner and president of R.C. Stevens Construction Co., Winter Garden, Florida. “Their dedication to world-class safety performance and commitment to total human health is the gold standard of the merit shop construction industry.”

STEP, the standard for developing world-class safety management systems in construction, is designed to help both large and small contractors evaluate every aspect of their corporate safety and health programs and identify opportunities for improvement. According to ABC's annual Safety Performance Report, the average STEP Diamond company is more than eight times safer than the U.S. Bureau of Labor Statistics' average for the entire industry based on their total recordable incident rate.

CNA is the presenting sponsor of the National Safety Excellence Awards.
